

## Impacts of plate tectonics in and around New Zealand

Research funded by the NZ Foundation for Research Science & Technology  
GNS Science ([www.gns.cri.nz/research/tectonics](http://www.gns.cri.nz/research/tectonics))

### List of publications, June 2007

- Abercrombie, R.E.; Bannister, S.C.; Pancha, A.; Webb, T.H.; Mori, J.J. 2001: Determination of fault planes in a complex aftershock sequence using two-dimensional slip inversion. *Geophysical journal international* 146(1): 134-142.
- Abercrombie, R.E.; Webb, T.H.; Robinson, R.; McGinty, P.J.; Mori, J.J.; Beavan, R.J. 2000: The enigma of the Arthur's Pass, New Zealand, earthquake; 1, Reconciling a variety of data for an unusual earthquake sequence. *Journal of Geophysical Research B, Solid Earth and Planets* 105 (7): 16,119-16,137.
- Acocella, V.; Spinks, K.; Cole, J.; Nicol, A. 2003: Oblique back-arc rifting of the Taupo Volcanic Zone, New Zealand. *Tectonics* 22 (4): 1045.
- Arnadóttir, T.; Thornley, S.; Pollitz, F.F.; Darby, D.J. 1999: Spatial and temporal strain rate variations at the northern Hikurangi margin, New Zealand. *Journal of geophysical research. Solid earth* 104(B3): 4931-4944.
- Audoine, E.; Savage, M.K.; Gledhill, K. 2000: Seismic anisotropy from local earthquakes in the transition region from a subduction to a strike-slip plate boundary, New Zealand. *Journal of Geophysical Research B, Solid Earth and Planets* 105 (4): 8013-8033.
- Bacon, S.N.; Chinn, T.J.; Van Dissen, R.J.; Tillinghast, S.F.; Goldstein, H.L.; Burke, R.M. 2001: Paleo-equilibrium line altitude estimates from late Quaternary glacial features in the inland Kaikoura Range, South Island, New Zealand. *New Zealand Journal of Geology and Geophysics* 44 (1): 55-67.
- Bannister, S.; Melhuish, A.; Henrys, S.A.; Stern, T.; Ten Brink, U. 1999: Deep seismic reflections beneath the Trans-Antarctic Mountain Front, from reprocessed SERIS seismic data. *Terra Antartica* 6(4): 363-364.
- Bannister, S.; Reyners, M.; Stuart, G.; Savage, M. in press: Imaging the Hikurangi subduction zone, New Zealand, using teleseismic receiver functions: crustal fluids above the forearc mantle wedge. *Geophysical journal international*.
- Bannister, S.C.; Kennett, B.L.N. 2002: Seismic activity in the Transantarctic Mountains: results from a broadband array deployment. *Terra Antartica* 9(1): 41-46.
- Bannister, S.C.; Reyners, M.E.; Stuart, G.; Savage, M. 2007: Imaging the Hikurangi subduction zone, New Zealand, using teleseismic receiver functions: crustal fluids above the forearc mantle wedge. *Geophysical journal international* 169(2): 602-616; doi: 10.1111/j.1365-246X.2007.03345.x.
- Bannister, S.C.; Snieder, R.K.; Passier, M.L. 2000: Shear-wave velocities under the Transantarctic Mountains and Terror Rift from surface wave inversion. *Geophysical research letters* 27(2): 281-284.
- Bannister, S.C.; Thurber, C.; Louie, J. 2006: Detailed fault structure highlighted by finely relocated aftershocks, Arthur's Pass, New Zealand. *Geophysical research letters* 33(18): L18315, doi:10.1029/2006GL027462.
- Bannister, S.C.; Yu, J.; Leitner, B.; Kennett, B.L.N. 2003: Variations in crustal structure across the transition from west to east Antarctica, Southern Victoria Land. *Geophysical Journal International* 155 (3): 870-884.
- Barker, P.F.; Barrett, P.J.; Camerlenghi, A.; Cooper, A.K.; Davey, F.J.; Domack, E.W.; Escutia, C.; Kristoffersen, Y.; O'Brien, P.E. 1998: Ice sheet history from Antarctic continental margin sediments: the ANTOSTRAT approach. *Terra Antartica* 5(4): 737-760.
- Barnes, P.M.; Davy, B.W.; Sutherland, R.; Delteil, J. 2002: Frontal accretion and thrust wedge evolution under very oblique plate convergence: Fiordland Basin, New Zealand. *Basin Research* 14(4): 439-466.

- Barnes, P.M.; Sutherland, R.; Davy, B.W.; Delteil, J. 2001: Rapid creation and destruction of sedimentary basins on mature strike-slip faults: an example from the offshore Alpine Fault, New Zealand. *Journal of Structural Geology* 23 (11): 1727-1739.
- Barnes, P.M.; Sutherland, R.; Delteil, J. 2005: Strike-slip structure and sedimentary basins of the southern Alpine Fault, Fiordland, New Zealand. *Geological Society of America bulletin* 117(3/4): 411-435.
- Beavan, J.; Ellis, S.; Wallace, L.; Denys, P. in press-a: Kinematic Constraints from GPS on Oblique Convergence of the Pacific and Australian Plates, Central South Island, New Zealand. *Geophysical Monograph*.
- Beavan, J.; Wallace, L.; Fletcher, H.; Douglas, A. in press-b: Slow slip events on the Hikurangi subduction interface, New Zealand. *Journal of Geodesy*.
- Beavan, R.J. 2001: Long-term stability of Wellington tide gauge, 1911-2001, incorporating May 2001 levelling survey to Wellington fundamental benchmark K80. *Institute of Geological & Nuclear Sciences science report 2001/09*: 18 p.
- Beavan, R.J. 2002: Levelling measurements from Auckland tide gauge to benchmarks found in non-reclaimed land, October 2001. *Institute of Geological & Nuclear Sciences science report 2002/05*: 23 p.
- Beavan, R.J. 2004: Kinematics of the New Zealand plate boundary: field report on the 2003 GPS survey of the Central North Island/Taranaki network (CNI2003). *Institute of Geological & Nuclear Sciences science report 2004/05*: 26 p.
- Beavan, R.J.; Haines, J. 2001: Contemporary horizontal velocity and strain rate fields of the Pacific-Australian plate boundary zone through New Zealand. *Journal of Geophysical Research. Solid Earth* 106(B1): 741-770.
- Beavan, R.J.; Matheson, D.W. 2005: Kinematics of the New Zealand plate boundary: field report on the 2002 GPS survey of the South Island networks, AP2002 and CSI2002. *Institute of Geological & Nuclear Sciences science report 2005/09*: 35 p.
- Beavan, R.J.; Matheson, D.W.; Denys, P.; Denham, M.; Herring, T.; Hager, B.; Molnar, P. 2003: A vertical deformation profile across the Southern Alps, New Zealand, from 3.5 years of continuous GPS data. In Proceedings of the workshop: the state of GPS vertical positioning precision: separation of earth processes by space geodesy, April 2-4, 2003, Luxembourg. Cahiers du Centre Europeen de Geodynamique et de Seismologie 23, Luxembourg: European Centre for Geodynamics and Seismology. Pp. 12.
- Beavan, R.J.; Moore, M.; Pearson, C.; Henderson, M.; Parsons, B.; Bourne, S.; England, P.; Walcott, D.; Blick, G.; Darby, D.J.; Hodgkinson, K. 1999: Crustal deformation during 1994-1998 due to oblique continental collision in the central Southern Alps, New Zealand, and implications for seismic potential of the Alpine fault. *Journal of geophysical research. Solid earth* 104(B11): 25,233-25,255.
- Beavan, R.J., Reyners, M.E. 2003: Quake yields tsunami of data. *New Zealand Geographic* 66: 6-9.
- Beavan, R.J.; Silcock, D.; Hamburger, M.; Ramos, E.; Thibault, C.; Feir, R. 2001: Geodetic constraints on postseismic deformation following the 1990 Ms 7.8 Luzon earthquake and implications for Luzon tectonics and Philippine Sea plate motion. *Geochemistry Geophysics Geosystems* 2(9): doi:10.1029/2000GC0001000.
- Beavan, R.J.; Tregoning, P.; Bevis, M.; Kato, T.; Meertens, C. 2002: Motion and rigidity of the Pacific Plate and implications for plate boundary deformation. *Journal of Geophysical Research. Solid Earth* 107(B10): doi:10.1029/2001JB000282.
- Benson, A.M.; Little, T.A.; Van Dissen, R.J.; Hill, N.; Townsend, D.B. 2001: Late Quaternary paleoseismic history and surface rupture characteristics of the eastern Awatere strike-slip fault, New Zealand. *Geological Society of America Bulletin* 113(8): 1079-1091.

- Berryman, K.R.; Villamor, P. 2004: Surface rupture of the Poulter Fault in the 1929 March 9 Arthur's Pass earthquake, and redefinition of the Kakapo Fault, New Zealand. *New Zealand Journal of Geology and Geophysics* 47(2): 341-351.
- Bourne, S.J.; Arnadottir, T.; Beavan, R.J.; Darby, D.J.; England, P.C.; Parson, B.; Walcott, R.I.; Wood, P.R. 1998: Crustal deformation of the Marlborough fault zone in the South Island of New Zealand: geodetic constraints over the interval 1982-1994. *Journal of geophysical research. Solid earth* 103(B12): 30147-30165.
- Calvert, A.T.; Mortimer, N. 2003: Thermal history of Transantarctic Mountains K-feldspars, Southern Victoria Land. *Terra Antarctica* 10(1): 3-15.
